

# Session Sketches

An Overview of the Concept

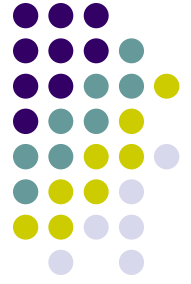

# Session Sketches....Why?

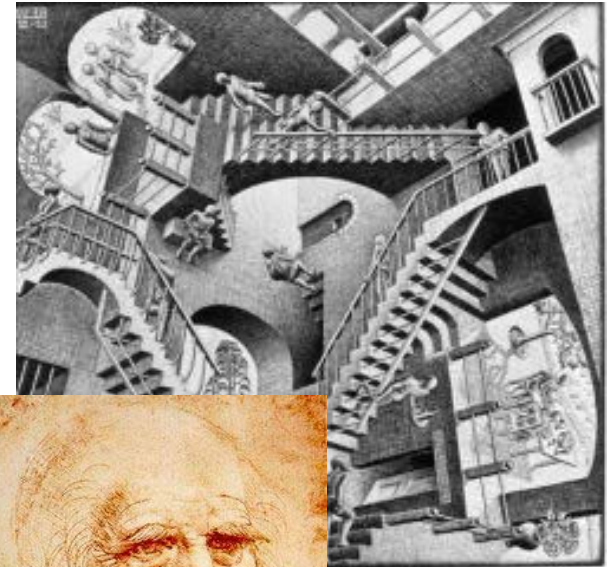

- Opportunity to reacquaint the profession with the pencil
- Technology does not rule design...Creative forces govern.
- Lack of creative illustration in current educational curriculum

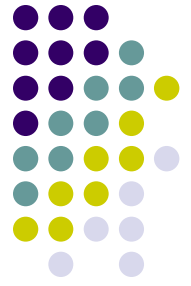

# Session Sketches....Who?

- Established to benefit the members of local architectural profession: practitioners and students.
- Involving local artists of various artistic disciplines (sculpture, painting, watercolour)
- Involving professionals with demonstrated talent in the arts (painterly architects)
- allows for additional input from outside sources

# Session Sketches....When?

- Spring / Summer / Fall timing: depending on level of interest and ability to organize
- Saturday mid-day sessions, could be Sunday
- Prefer to avoid evenings
- Short in duration (3 – 4 hours)

# Session Sketches....Where?

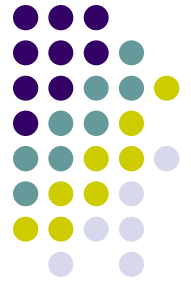

- locations flexible depending on number attending
- lots of opportunity for specific sites
- Office locations may be accessed depending on the specific session

I tried sketching the CAT,  
but he kept MOVING!

# Session Sketches....What?

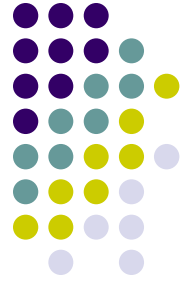

## Details:

- Sessions could vary in visual arts – painting, sketching, drawing
- Media could change – charcoal, watercolour, conte, pencil, ink, marker, pastels
- Subjects could vary from landscape (Victoria Park) to still life or architectural details, or even each other (No nudes please).

# Session Sketches....How?

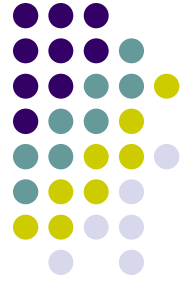

Each session:

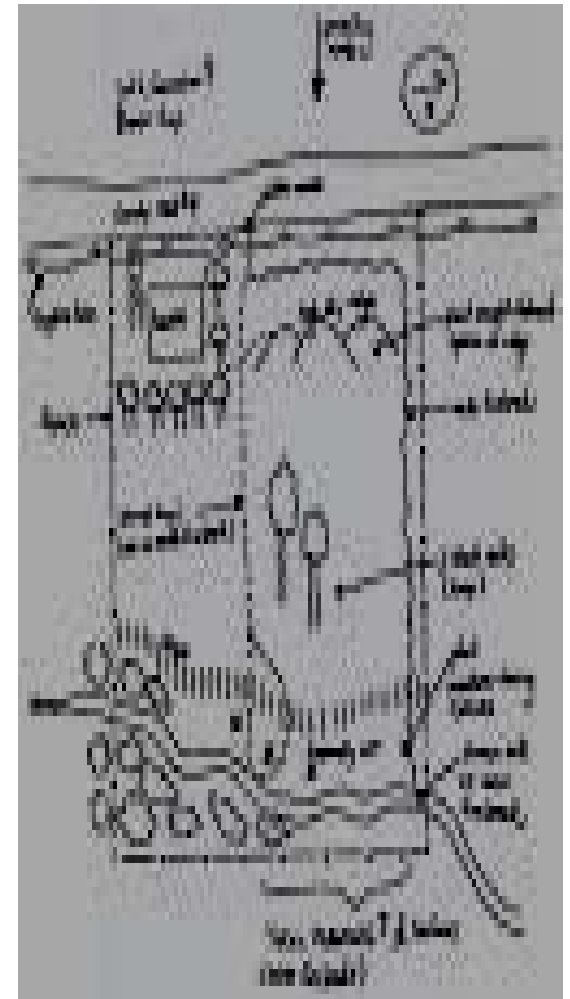

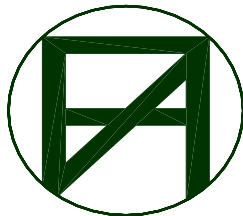

- Introduction
- Session sketching/visual work
- Review session with members/artist  
(complete with beer, pretzels, snacks?)

# Session Sketches....How?

- Stipend charge for each person attending a session (5-10-20??)
- Cash will provide an honorarium to artists participating
- Food and drink can come from surplus cash (the more the merrier)
- F/A can front the effort or we form separate committee to manage the efforts

# Session Sketches

Thoughts and Discussion.....
